COMPUTER ENGINEERING

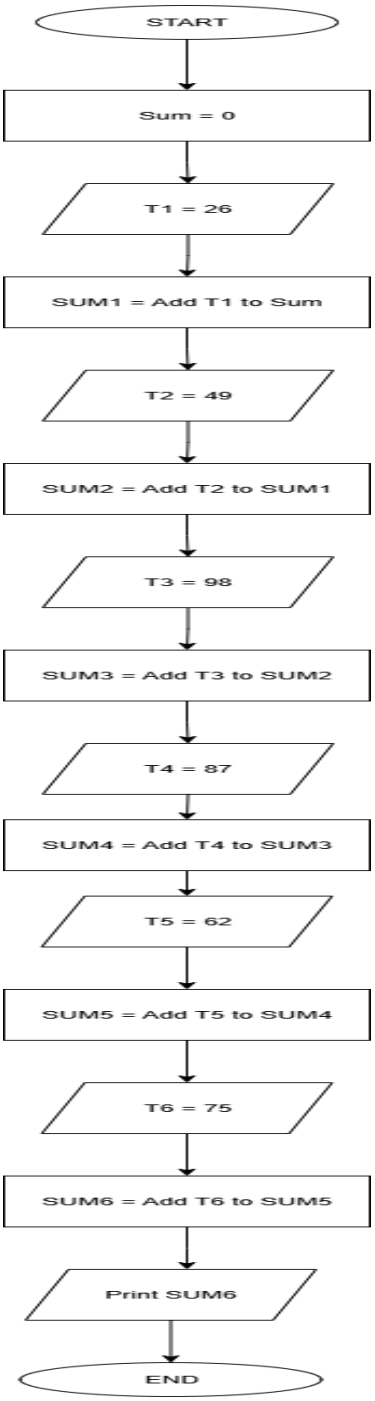

QUEZON CITY

COURSE CODE/TITLE:	CPE 007	**SECTION:**	CPE11S4
DATE PERFORMED:	7/15/2026	**DATE SUBMITTED:**	7/15/2026
NAME:	RAMESES ANDREI JAMES D.V. DOMINGO	**INSTRUCTOR:**	Mr. Robin Valenzuela

ACTIVITY NO. 1.1 Using Pseudo-code Statements and Flowchart Symbols

1. PROCEDURE OUTPUT

What procedures did you perform?

START
Sum = 0
T1 = 26
SUM1 = Add T1 to Sum
T2 = 49
SUM2 = Add T2 to SUM1
T3 = 98
SUM3 = Add T3 to SUM2
T4 = 87
SUM4 = Add T4 to SUM3
T5 = 62
SUM5 = Add T5 to SUM4
T6 = 75
SUM6 = Add T6 to SUM5
Print SUM6
END

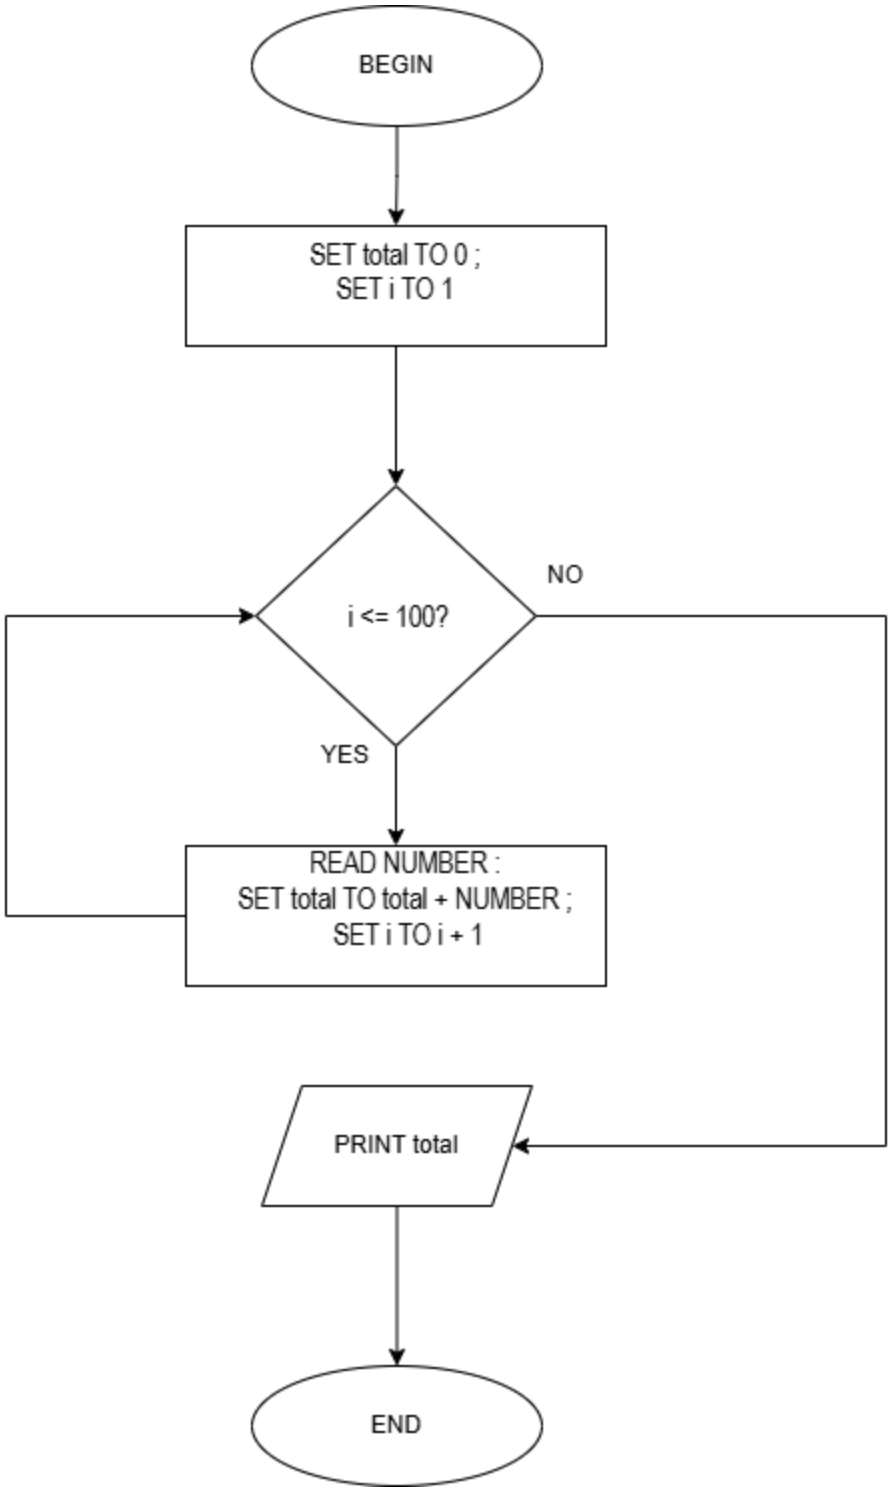

2. ANSWERS TO SUPPLEMENTAL ACTIVITY

Copy and paste the questions from the lab and include your answers after.

For each of the following, design the corresponding Pseudocode and flowchart:

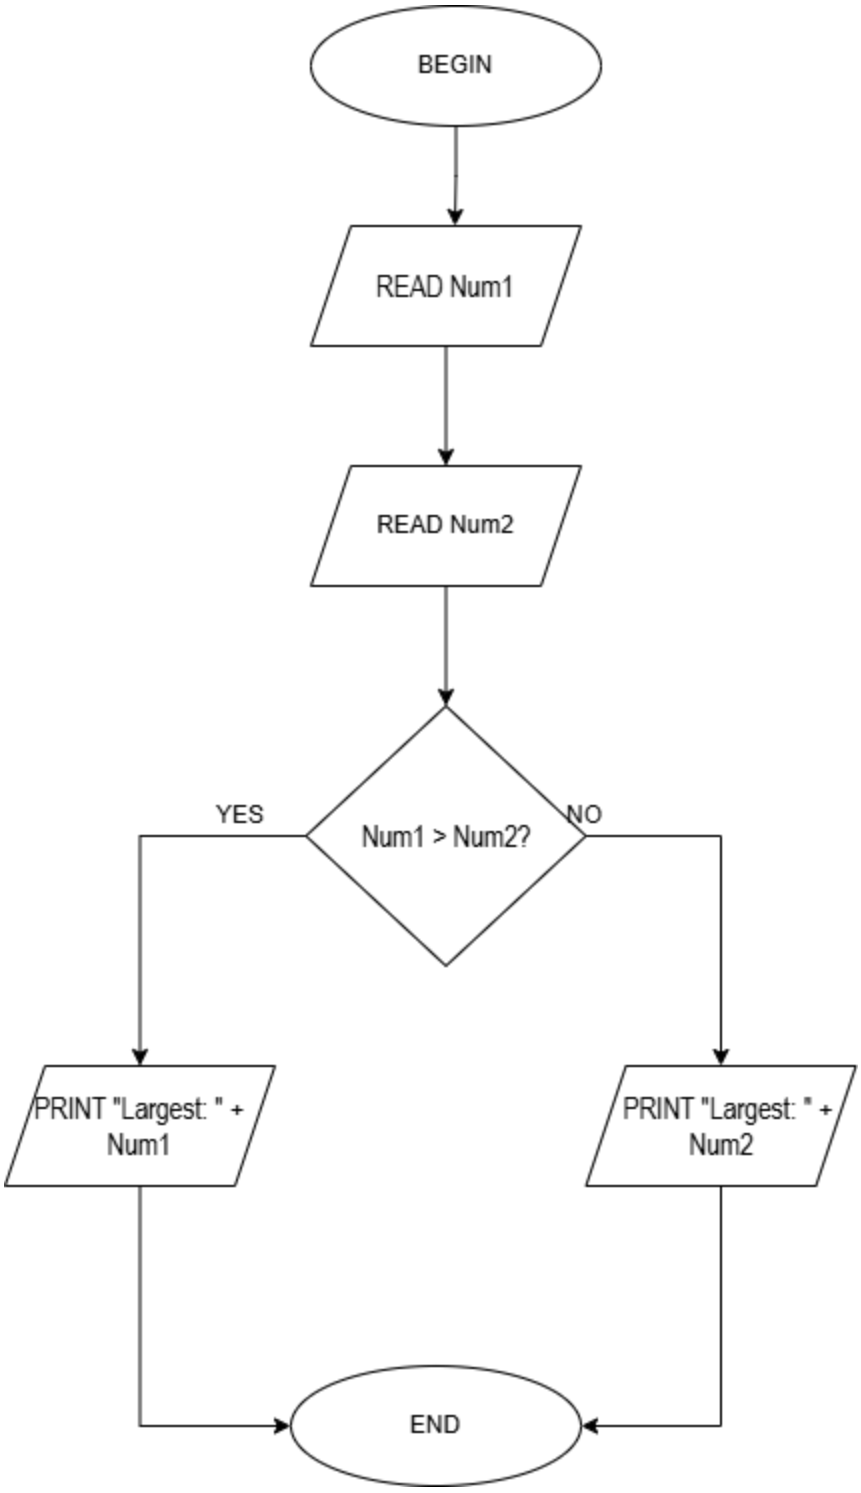

1. Design an algorithm that reads 100 numbers and displays their sum.

```
BEGIN
SET total TO 0
SET i TO 1
WHILE i <= 100 DO
   READ NUMBER
   SET total TO total + NUMBER
   SET i TO i + 1
ENDWHILE
PRINT total
END
```

BEGIN
SET total TO 0 ;
SET i TO 1
i <= 100?
NO
YES
READ NUMBER :
SET total TO total + NUMBER ;
SET i TO i + 1
PRINT total
END

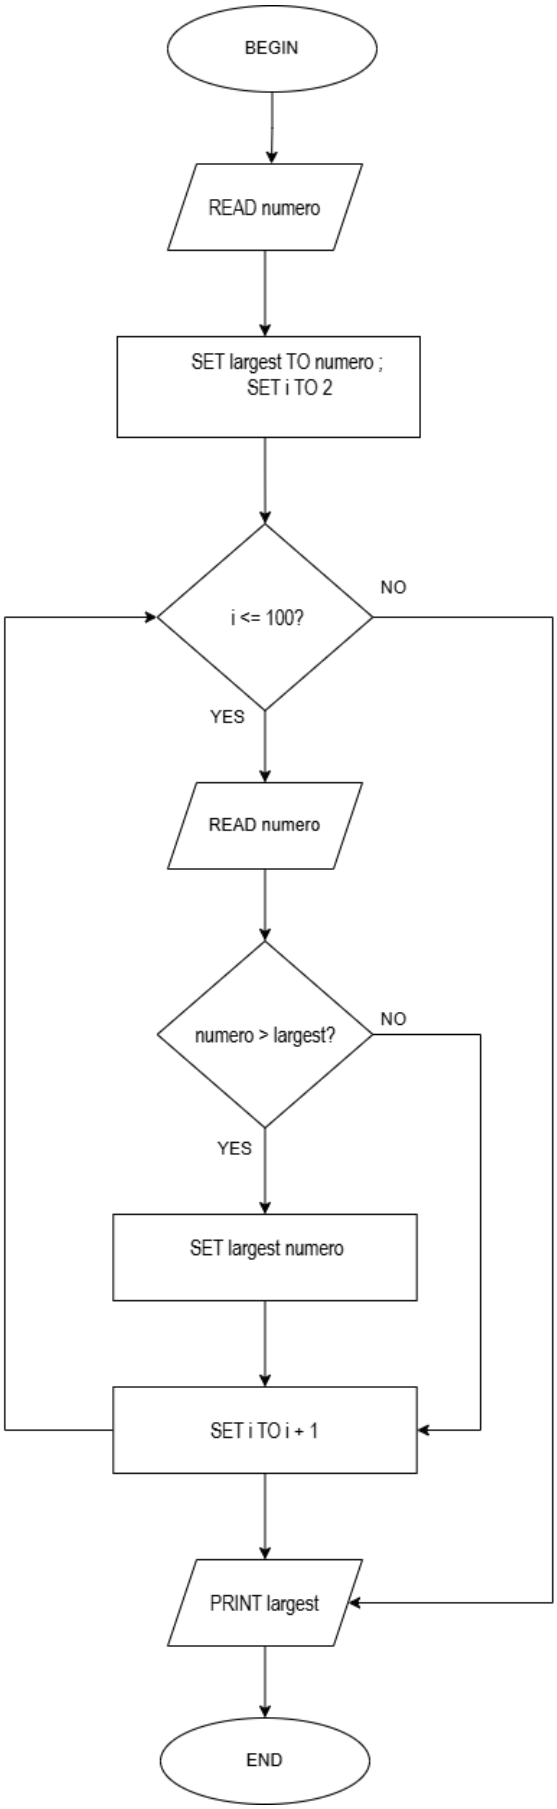

2. Design an algorithm that reads two numbers and displays the larger of the two.

```
BEGIN
READ Num1
READ Num2
IF Num1 > Num2 THEN
  PRINT "Largest: " + Num1
ELSE
  PRINT "Largest: " + Num2
ENDIF
END
```

BEGIN
READ Num1
READ Num2
Num1 > Num2?
YES
NO
PRINT "Largest: " + Num1
PRINT "Largest: " + Num2
END

3. Design an algorithm that reads 100 numbers and displays the largest value among them.

```
BEGIN
READ numero
SET largest TO numero
SET i TO 2
WHILE i <= 100 DO
   READ numero
   IF numero > largest THEN
      SET largest TO numero
   ENDIF
   SET i TO i + 1
ENDWHILE
PRINT largest
END
```

BEGIN
READ numero
SET largest TO numero ;
SET i TO 2
i <= 100?
NO
YES
READ numero
numero > largest?
NO
YES
SET largest numero
SET i TO i + 1
PRINT largest
END

3. ARTIFICIAL INTELLIGENCE (AI) USE DISCLOSURE STATEMENT

I hereby declare that artificial intelligence (AI) tools were used, if applicable, in the preparation of this academic work. The following indicates the nature and extent of AI assistance:

Tools Used:

Examples: ChatGPT, Microsoft Copilot, Grammarly, QuillBot, etc.

Purpose of Use:

Examples: grammar correction, idea generation, formatting, summarization, code assistance, explanation of concepts, etc.

Extent of Use:

Explain how AI was used and confirm that it did not replace original thinking, analysis, authorship, or completion of the required work.

By submitting this activity, I affirm that my use of AI complies with T.I.P.'s AI usage policy and does not exceed the permitted limits for similarity, automated content generation, or academic assistance.

I understand that any false, incomplete, or misleading disclosure may be subject to investigation in accordance with due process and may result in sanctions for violation of existing T.I.P. policies.

Lab activities, templates, and related instructional materials shall not be reuploaded, reproduced, distributed, or shared with external organizations or third parties without the prior express written permission of the Technological Institute of the Philippines.
