Lab – Mobile Device Information

Introduction

In this activity, you will use the Internet, a technical journal, or a local store to gather information about an Android and an iOS device. You will document the specifications of each Android and iOS device onto this worksheet. Be prepared to discuss your decisions regarding the devices you select.

Recommended Equipment

- PC with Internet Connection

Specifications	Android Device	iOS Device
Battery Information	*6050mAh*	*Li-Ion 2815 mAh (10.78 Wh)*
Screen Size and Resolution	*6.6	1080 x 2408*	*6.1 inches	1170 x 2532 pixels,*
Size and Weight	*163.7 x 75 x 8 mm	193 g*	*5.78 x 2.81 x 0.29 in	164 g*

Step 2: Based on your research, which mobile device would you select? Be prepared to discuss your decisions regarding the mobile device you select.

Based on my humble research, I would choose the Nubia Neo 5g simply because I am a performance person, not a brand one. I tend to go more on the quality instead of the name. Yes Apple is a big name in the cellphone industry but still its specs are completely inferior to the Nubia neo 5g which has more memory and a large battery capacity which is ideally fit for me as a person who enjoys long hours of playing online games like Mobile Legends.
